Flexible

Full flexibility for
multifaceted
tasks.

Base Flexible

011208		<p>Base Flexible</p> <p>The flexible solution for machine tending, automation stations or collaborative applications. Quick and easy change to new tasks. Integrated table solutions keep calibration. Base Flexible fits with main module 011309 and with all accessories below.</p>
011218		<p>Bottom tray</p> <p>Keeps the work area tidy and clean.</p>
011223		<p>Machine Feet x4</p> <p>Makes the Base stand steady and gives easy handling and movement of the cobot from one task to another, from one factory position to another by simply using a hand forklift. Fits with Base Flexible, Base Midi or Base Compact.</p>
011026		<p>Machine Wheel x3, Feet x4</p> <p>Two fixed and one turning wheel makes the Base stand steady with and gives easy handling and movement of the cobot from one task to another, from one factory position to another by simply using a hand forklift. Fits with Base Flexible, Base Midi or Base Compact.</p>
011438		<p>Table Pole kit, x4</p> <p>Two long and two short poles that fits with the different sized tables for Base Flexible and the shorter 800x650 mm table on Base Midi, giving a firm and steady working surface of the tables. The Table Poles are adapted to also give an ergonomically good tabletop height of >900 mm with Machine Feets, when working collaborative with the cobot.</p>
010852		<p>Tabletop 800x1100 mm</p> <p>Midsize tabletop with the same width of 800 mm, as the Base Flexible. Available in aluminum as well as high quality plywood with chamfered edges.</p>
011432		<p>Tabletop 800x650 mm</p> <p>Small size tabletop with the same width of 800 mm, as the Base Flexible. Available in aluminum as well as high quality plywood with chamfered edges.</p>
009906		<p>Tabletop 2400x1100 mm</p> <p>Large size tabletop creating work surfaces on both sides of the middle cobot work area. This enables cobot/human collaboration where the workers for instance can prepare an article and position it to let the cobot perform advanced or precise tasks, inappropriate for humans. Metal sheet ledges strengthens the plywood board, making it firm along its length.</p>
009719		<p>Positioning table 1300x900 mm</p> <p>Inclined positioning table with 45° angles, enabling quick and simple sheet positioning for the task. The table design and material can be customized for size, materials and provided with flat surface bearings as well as designed for varying article shapes.</p>

"Collobro keeps providing the market with the most flexible and multifaceted concept for collaborative robot applications."
