

## Base Midi

011232

Ideal for operating  
multiple tasks

Full flexibility for  
multifaceted  
tasks.

## Base Midi

011232		<p><b>Base Midi.</b> The compact yet flexible solution for machine tending, automation stations or collaborative applications. Quick and easy change to new tasks. Integrated table solutions keep calibration. Base Flexible fits with main module 011309 and with all accessories below.</p>
011218		<p><b>Bottom tray</b> Keeps the work area tidy and clean.</p>
011223		<p><b>Machine Feet x4</b> Makes the Base stand steady and gives easy handling and movement of the cobot from one task to another, from one factory position to another by simply using a hand forklift. Fits with Base Flexible, Base Midi or Base Compact.</p>
011233		<p><b>Machine Feet x4, Machine Mount x2</b> Same as 011223 plus 2 pcs of machine mounts for bolting the cobot station into position, eliminating base movements or inaccuracy</p>
011438		<p><b>Table Pole kit, x4</b> Two long and two short poles that fits with the different sized tables for Base Flexible and the shorter 800x650 mm table on Base Midi, giving a firm and steady working surface of the tables. The Table Poles are adapted to also give an ergonomically good tabletop height of &gt;900 mm with Machine Feets, when working in collaborative mode with the cobot.</p>
011432		<p><b>Tabletop 800x650 mm</b> Small size tabletop with the same width of 800 mm, as the Colla H1.0. Available in aluminum as well as high quality plywood with chamfered edges.</p>

*"Collobro keeps providing the market with the most flexible and multifaceted concept for collaborative robot applications."*
